**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

In claim 1:

The encoders and decoders are indefinite and should be changed to "a video coder and decoder";

***"in a computer"*** would raise new issue;

The applicant should change "in a computer" to ***"said coder and/or decoder implemented in a computer"***. Appropriate correction is required.

In claim 33:

"An arrangement" should be identified. Appropriate correction is required.

In claim 37:

***"in a computer"*** would raise new issue.

The changed ***"coded"*** to ***"decoded"*** changes the scope of the claim from ***coding/encoding to decoding/decompressing***, which raises new issue and should be restricted based upon original presentation.

In claim 30:

Claim 30 depends on claim 9 before, amending to claim 30 dependent on claim 28, which makes the claim 30 raises new issues.

In claims 40-42:

Claims 40-42, each of them depends on claim 39 before, amending to each of them dependent on claim 39, which makes each of them raises new issues.

In claim 43:

Claim 43 depends on claim 1 before, amending to claim 43 dependent on claim 25, which makes claim 43 raises new issues.
